## You can make a tomato bisque fit for a King's table from Campbell's Tomato Soup.

This soup is prepared from selected ripe Jersey tomatoes, rich in natural sugar, and seasoned just enough to bring out perfectly their delicious freshness and flavor.

It blends with milk or cream smoothly without curdling. And by following the simple directions on the label, you can produce this delightful bisque easily in three minutes. A more tempting and wholesome delicacy was never served.

Try it for dinner, and you'll say so too.

### French Salad Dressing.

Many cooks who understand salad making do not mix French dressing very thoroughly before applying it, and some do not mix it at all. They measure out the oil and vinegar in the bone or wooden they measure it out, of else pour it directly on the salad. If the dressing is to be mixed before it is put on the saladas it should be when it is put on tomatoes, potatoes or cucumbers—the oil and vinegar should be chilled on the ice, and then the oil should be mixed slowly with the vinegar and beaten with a lork all the time it is mixing. Beat in salt, pepper and other seasonings. Then before the emulsion formed has had time to separate mix it thoroughly with the vege-

### PRETTY GARDENETTE IN THE WINDOW

One may live in a city flat without foot of ground to call his own, and yet have a garden. The window box solves the problem. Even a sunny window is not necessary, although to be preferred; there are plants and flowers which flourish in the shade.

The window garden will be a thing of beauty all summer. if properly made and ing, and happiness, the glad; joyous hapuously in underwear and negliges for that a thing of beauty is a joy forever. It lives in memory after it has faded

City people sometimes are puzzled to know where they can obtain a little common earth.

All through the season water must be applied with a generous hand, even more so than in the garden, for the reason that the soil in boxes is more exposed to the air and dries more quickly. In warm weather, watering every day is needed. Holes for drainage are often made in the bottom of the window box. but really are not needed, unless the plants are flooded with water, which is going to extremes.
